

P&R Specialty Job Post

1st Industrial Electrician

P&R Specialty, Inc. a leading manufacturer of Plastic Spools, Fiber Spools and Plywood Reels serving the wire and cable industry for over 30 years is seeking a first shift Industrial Electrician to join their growing team. The Industrial Electrician is responsible designing, building and optimizing control systems and maintaining machinery.

Key performance objectives in order of priority are:

- Designs and builds controls for equipment and optimizes existing controls to support new product development, increase capacity and optimize machine efficiency.
- Logically troubleshoots and resolves machine issues to minimize downtime.
- Performs preventative maintenance to maximize asset longevity.

This is a very hands-on position that requires at least five years of experience working in a manufacturing environment as an industrial electrician. The successful candidate must have exceptional PLC programming and troubleshooting skills.

Compensation will be structured around the individual and their capability. Benefit package includes health insurance, vacation and holiday pay, 401(k). Pre-employment drug screen and physical are required.

P&R Specialty is located in Piqua, OH. Qualified candidates should submit their resume and compensation requirements to nlevek@prspecialty.com.
